estimated that quality deterioration and loss in value that take place are about 25 to 30% in some fruits and vegetables, due to inadequacy of post harvest infrastructure and perishability of the produce. However, since substantial quantities of fruits and vegetables are utilised in house-hold and unorganised sector for preservation etc., the net unutilised quantity may not exceed 5%.

(b) Ministry of Food Processing Industries has formulated various plan schemes for implementation during the 8th Plan period for the development of fruits and vegetables processing industries, the details of which are given in the statement (*see* below). Similar schemes are proposed to be continued in the 9th Five Year Plan.
